<h2>Hi, I'm Ruby</h2>
<p>Photographer and Editor</p>
<header>
  <h2>Photography is the art, science, and practice of creating images by recording light or other electromagnetic radiation, either electronically by means of an image sensor, or chemically by means of a light-sensitive material such as photographic film. It has evolved over the years into a multifaceted and widely accessible form of visual expression.</h2>

```

```
<h3>Photography has a rich history, dating back to the 19th century. The invention of the camera obscura and subsequent advancements in technology led to the creation of the first permanent photographic images.</h3>
